

BUCS/Competitions - Activity Incidents & Injuries Guidelines

It is difficult to describe a procedure that will fit every circumstance, but these are the key points you should follow. All sports and activities must have a nominated responsible person in attendance; they are there to take charge and assess initially in the event of an incident or injury. This could be a qualified first aider, team coach, team captain etc. *Sports Therapy students are limited to first aid only and cannot treat major injuries.* If in doubt seek professional advice.

If Sport Therapy are not present, an accident report form (bit.ly/WSUaccident) is to be completed and returned to the SU within 24 hours.
Injured student to attend injury clinic if needed for further advice before returning to play. Students with suspected concussion to attend injury clinic as mandatory before return to any activity.
