

# UN Sustainable Development Goals

---

The Students' Union is committed to embedding the principles of sustainability within the organisation and has a number of current policies passed by Student Council including a ban on domestic air travel on the island of Great Britain (i.e. we can fly to Belfast but not Glasgow) and a commitment to achieving carbon neutral status by 2030. Our only issues-based Network is the Sustainability Network, again showing the commitment of the Union and our students to living, working and studying more sustainably.

## Sustainable Development Goals (SDG)

When thinking about sustainability it is important to recognise that it is wider than environmental sustainability. To achieve truly sustainable development for the planet we need to ensure that we provide social and economic sustainability alongside supporting a viable natural environment.

The Sustainable Development Goals (SDGs), otherwise known as the Global Goals, are a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity by the year 2030.

These 17 Goals build on the successes of the Millennium Development Goals, while including new areas such as climate change, economic inequality, innovation, sustainable consumption, peace and justice, among other priorities. The goals are interconnected – often the key to success on one will involve tackling issues more commonly associated with another.

Worcester Students' Union, alongside the University of Worcester is a proud signatory of the SDG Accord, which is the University and College sector's response to the UN SDGs and aims to embed the SDGs into our work.

### So what are each of the SDGs and how do we work towards them?
